

A.C. Single Phase Capacitor run/Three Phase A.C. Geared Instrument Motors.

Since 1974

Delco offers Single Phase capacitor run & Three Phase Geared Instrument Motors. Totally enclosed face / foot mounted, fan cooled, of wide variety to meet trouble free application for original equipment manufacturers.

Worm Geared Motor Type DFGR

Construction Features

- Ball Bearing to motor and Gear Box also
- Shaft dia (max. 15 mm) & length to suit.
- Out-put shaft drive clockwise / counter clockwise .
- Motor-single phase capacitor run / Three phase 50 Hz
- Motor power 1 / 20 to 1 / 8 h.p.
- Out-put shaft perpendicular to Motor-Downward/Upward or sideways.
- Ratio's available-10, 16, 24, 38, 48
- Torque max. - 150 kg. cm.

Feature

- Low noise Gear design
- Compact size with strong output
- Wide variety available
- Long life expectancy
- Many more products to come.

Engineering data / specification for some of the Standard Motors.

Type	Motor	Frame	A	B	C	D	E
	H. P.		∅ mm	∅ mm	mm	mm	mm
DFGR-20	0.05	63	91	104	200	90	40
DFGR-10	0.10	63	91	104	215	90	40
DFGR-8	0.125	63	91	104	215	90	40

Helical Geared Motor

- Closed Aluminum cast housing.
- Motor-single phase capacitor run/Three phase & Motor power-1/20 to 1/8 H.P.
- For type DFGK Ratio's available - 5.3, 10, 15.5, 19, 24
- For type DFGI Ratio's available 25, 28, 35.
- Torque max.-50 kg. cm. For type DFGK and 40 kg. cm for type DFGI.
- Available in 56 & 63 Frame size.
- Out-put shaft drive-Clockwise/Counter clockwise

Type DFGK

Engineering data / specification for some of the Standard Motors.

Type	MOTOR HP	FRAME	A mm	B mm	C mm	D ∅ mm	G ∅ mm	E ∅ mm	L mm	M mm	N	P ∅ mm
DFGK-20	1/20	63	135	45	48	90	104	10	40	90	104 PCD	32
DFGK-10	1/10	63	145	45	48	90	104	10	40	90	4 Holes	32
DFGK-8	1/8	63	155	45	48	90	104	10	40	90	M-6	32

Double Reduction Geared Motors also available
