

CUSTOMIZED EC BLOWERS

DELCO CUSTOMIZED EC BLOWERS are engineered for energy-efficient and intelligent airflow across diverse applications. Offering 35%–60% energy savings depending on speed control. They combine variable speed operation, smart monitoring and advanced connectivity for reliable and efficient performance.

KEY FEATURES

RF / UART / RS-485
Connectivity

35% - 60%
Energy Savings

Customized
Motor Designs

Variable Speed
Control

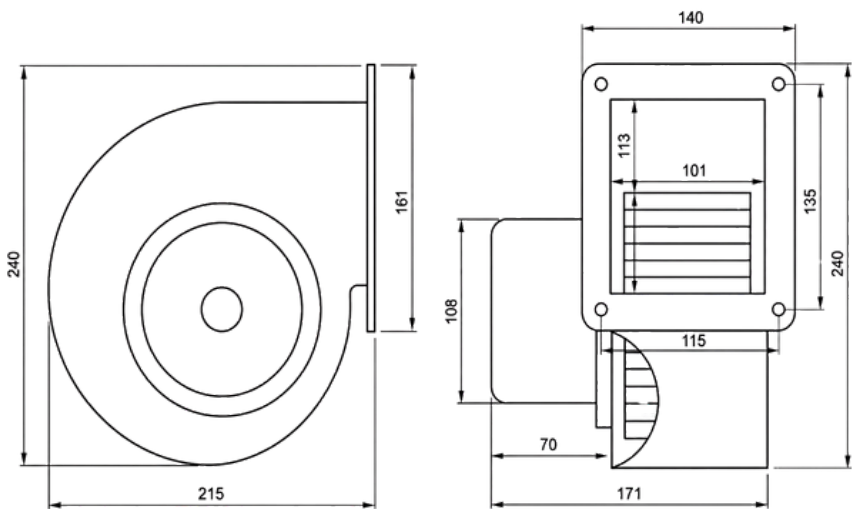

Smart Monitoring of
Current, Voltage &
RPM

Fault
Monitoring

TECHNICAL SPECIFICATION – CUSTOMIZED EC BLOWERS

Sr. No.	Model	Volt (V)	Watts (W)	Speed (RPM)	Air Vol. (m ³ /hr)	Air Vol (CFM)
1	EC - 150	230	70	2450	540	325

APPLICATION AREAS

HVAC
Systems

Air Handling
Units (AHUs)

Ventilation
Systems

Home &
Commercial
Appliances

Industrial
Automation

Smart
Equipment &
Control Systems
